Information Systems and Software Development Technologist with a focus on data analysis and Full Stack development. Practical experience cleaning and transforming data with Python and pandas, designing schemas and queries in MySQL, and building interactive dashboards in Power BI. I complement this analysis with skills in Node.js and React, allowing me to understand the complete data lifecycle from source to visualization. Seeking roles as a Data Analyst or in Business Intelligence.

PROJECTS

Personal Finance Analysis | <https://github.com/iamjohitan/personal-finance>
Data Analyst

Cali, Colombia
Jun 2026

End-to-end data analysis project based on a Kaggle personal finance dataset with intentional errors. Cleaned and transformed 15,900 records using Python and pandas, normalizing 47 category variants and 4 distinct date formats. Designed the schema in MySQL, loaded the clean data, and wrote 13 queries to extract financial KPIs, savings rate, monthly balance, and expense ranking. Built an interactive Power BI dashboard connected directly to MySQL with KPI cards, monthly trend, and category breakdown.

Tienda Miaow | <https://github.com/iamjohitan/TiendaMiaow>
Fullstack Developer

Cali, Colombia
Dec 2025

Hardware component e-commerce with decoupled Full Stack architecture. Developed the frontend using HTML5, vanilla CSS3, and ES6+ JavaScript without frameworks, implementing a catalog with filters, persistent cart in localStorage, and an interactive PC Builder with WhatsApp quoting. Built the backend with Node.js and Express 5, designed a REST API with 6 endpoints for products, orders, and contact, and used Supabase (PostgreSQL) as the database with DDL schema and 21 seed products. Deployed the frontend on Vercel and the backend on Render.

EDUCATION

UNIVERSIDAD SANTIAGO DE CALI
Information Systems and Software Development Technologist

Cali, Colombia
Feb 2024 - Nov 2026

SENA
Software Programming Technician

Cali, Colombia
Sep 2022 - Jul 2023
