Frontend Developer focused on building modern, responsive web interfaces. Experienced in JavaScript, Vue.js, React, and Astro, with hands-on project work in reusable components, REST API consumption, and full-stack web development using Node.js and Express.js. Proficient in Python, Git, and GitHub.

PROJECTS

Aqua POS | <https://github.com/LilCharchar/Aqua>
Frontend Developer

Cali, Colombia
Dic 2025

Developed the frontend of a restaurant POS system using React, TypeScript, and Tailwind CSS. Built role-based views enabling staff to manage orders, tables, and payments in real-time, ensuring each user only accesses relevant functionality. Consumed REST APIs for real-time order management. Implemented light/dark mode and a reusable component system to maintain visual consistency across the application.

Netagora | netagora.co
Frontend Developer

Cali, Colombia
Nov 2025

Built the corporate landing page for a software agency using Astro and Tailwind CSS. Implemented a bilingual i18n system (ES/EN) to reach international clients, full technical SEO with Open Graph and hreflang tags, and a responsive UI with custom animations to project a professional brand image, leveraging Astro's static site generation for optimized load performance.
