Cali, Colombia • [linkedin.com/in/johanlucumi](https://www.linkedin.com/in/johanlucumi) • +57 315 447 8029 • johanesneiderlucumip@gmail.com

Technologist in Information Systems and Software Development in training, eligible to start professional internships, focused on frontend development and the construction of modern and responsive web interfaces. I have experience developing projects with JavaScript, Vue.js, Tailwind CSS, Node.js, and Express.js, working on reusable components, API consumption, and web application development. I complement my profile with knowledge of Python and version control with Git and GitHub

PROJECTS

Aqua POS | <https://github.com/LilCharchar/Aqua>
Frontend Developer

Cali, Colombia
Dic 2025

I developed the frontend of a POS system for a restaurant using React, TypeScript, and Tailwind CSS. The interfaces I built allow staff to manage orders, tables, and payments in real-time, with role-adapted views so each user only accesses what they need. I implemented light/dark mode and reusable components to ensure visual consistency throughout the application.

Netagora | netagora.co
Frontend Developer

Cali, Colombia
Nov 2025

I built the corporate landing page for a software agency using Astro and Tailwind CSS. I implemented an i18n system in Spanish and English to attract international clients, comprehensive technical SEO with Open Graph and hreflang to improve search engine ranking, and a responsive UI with custom animations to project a professional image.
